

2016 Georgia Farm Gate Value Report

Compiled and published annually by

The Center for Agribusiness & Economic Development

College of Agricultural &
Environmental Sciences
UNIVERSITY OF GEORGIA

AR-17-01
November 2017

Dear Farm Gate User:

We are pleased to present the 2016 Farm Gate Value Report (FGVR). The FGVR is compiled from a survey of Georgia Cooperative Extension county agents and commodity specialists for the purpose of providing annual county-level information for the value of all food and fiber commodities grown in the state.

Georgia is a very agriculturally diverse state as evidenced by the number and variety of commodities contained within this report. The Georgia Farm Gate Value report provides an in-depth look at the numerous commodities that make up Georgia agriculture and captures trends over time.

As a result of the breadth and depth of the data set, producers, decision makers, educators and others have come to rely on this Farm Gate Value Report to obtain accurate, reliable, and timely information.

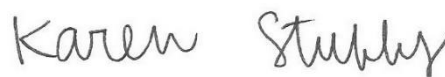

The 2016 FGVR indicates that Georgia's total agricultural production value of \$13.75 billion was down \$90.5 million (-0.65%) from 2015. Seven commodity groups experienced gain. Ornamental horticulture increased in value by \$54,406,073 (+6.9%), other income by \$175,910,369 (+26.17%), vegetables by \$53,038,255 (+4.86%), forestry by \$16,771,607 (+4.9%), agritourism by \$5,371,980 (+4.9%), fruits and nuts by \$38,675,578 (+5.47%), row and forage crops by \$180,408,392 (+8.05%). The remaining two commodity groups experienced loss. Livestock and aquaculture decreased in value by \$400,778,511 (-21.2%) and poultry and eggs by 214,303,866 (+3.86%).

We hope that the 2016 Georgia Farm Gate Value Report will be a useful reference tool. This data may be accessed online in Adobe Acrobat format at the Center for Agribusiness & Economic Development website, www.caed.uga.edu. We encourage the users to access more detailed reporting of Georgia Farm Gate Value data at <http://farmgate.caes.uga.edu/>.

Sincerely,

Kent Wolfe
Center Director

Karen Stubbs
Research Professional II, Farm Gate Coordinator

Acknowledgements

Special thanks to the Office of Information Technology, College of Agricultural and Environmental Sciences, for the support and maintenance of the Farm Gate database and Web site.

We appreciate the work of the Georgia Cooperative Extension Specialists who were consulted in the process of organizing this report along with the Georgia Cooperative Extension Agents and the Program Development Coordinators who provided information for the Farm Gate Value Report.

A Comparison of Agricultural Data Sources

In addition to the Farm Gate Value Report (FGVR), users of agricultural data in the state of Georgia have had a variety of available resources including National Agricultural Statistics Service (NASS), and The Census of Agriculture (Census). Historically, the Georgia National Agricultural Statistics Service has published Ag Facts annually. However, the Georgia Agricultural Facts was discontinued after the 2009 issue due to budget and resource cuts. The Georgia Agricultural Statistics Service continues to publish much of the information and post it to their website, but Ag Facts is not available in the previous format. The Census is produced every five years by the United States Department of Agriculture. Georgia Cooperative Extension compiles the FGVR typically each spring to capture the prior year's information. Since each of these reports measure different variables in different ways, it is likely that numbers taken from one report will not exactly match those from another report for similar commodities.

The FGVR relies exclusively on Cooperative Extension personnel to provide production information. Each year a survey is distributed to each county Extension office for completion by the county agent. For crops, individual agents are asked to supply county acreage and yields. A suggested price for each crop (determined by Extension specialists) is provided. The price for crops includes an adjustment for all government payments directly associated with the production of the crop and should provide a better indication of the value of the crop. Individual agents have the option of adjusting the price based on county conditions. Agents are also provided acreage data from the Farm Service Agency (FSA). This data is available for row crops, fruits and nuts, and vegetables. For livestock, inventory numbers are requested and a formula is then applied to calculate average production for the year and value of production for the county.

Although NASS also reports annual data, the types of data and sources differ from the FGVR. FGVR focuses only on value of production data, not all of NASS data is value of production. For some commodities, most notably livestock, sales or cash receipts are used instead. Cash receipts measure the value of marketings for the year, regardless of the year in which the commodity was produced. Another difference between the FGVR and NASS is that the FGVR has county-level value of production data for all of its commodities. Finally, the FGVR contains some commodities which are unavailable through NASS.

Center for Agribusiness and Economic Development

College of Agricultural & Environmental Sciences
UNIVERSITY OF GEORGIA

The Center for Agribusiness and Economic Development is a unit of the College of Agricultural and Environmental Sciences of the University of Georgia, combining the missions of research and extension. The Center has among its objectives:

- To provide feasibility and other short term studies for current or potential Georgia agribusiness firms and/or emerging food and fiber industries.
- To provide agricultural, natural resource, and demographic data for private and public decision makers.

To find out more, visit our Web site at: <http://caed.uga.edu>

Or contact:

Kent Wolfe, Director
Center for Agribusiness and Economic Development
Lumpkin House
The University of Georgia
Athens, Georgia 30602-7509
Phone (706)542-2434

The University of Georgia and Fort Valley State University, and the U.S. Department of Agriculture and counties of the state cooperating. The Cooperative Extension Service offers educational programs, assistance and materials to all people without regard to race, color, national origin, age, sex or disability.

An equal opportunity/affirmative action organization committed to a diverse work force.

AR-17-01

November 2017

Issued in furtherance of Cooperation Extension Acts of May 8 and June 30, 1914, the University of Georgia College of Agricultural and Environmental Sciences, and the U.S. Department of Agriculture cooperating.

Samuel L. Pardue, Dean and Director
